

Mt. Mansfield
Ski and Snowboard Club

Dear Supporting Member,

The success and strength of the Mt. Mansfield Ski and Snowboard Club comes in part because of our supporting members like you.

The 2011 season was an exceptional season for MMSC and our athletes. We moved into our new clubhouse which met and exceeded most if not all of our expectations. We had Alpine, Snowboard, and Freestyle athletes compete and succeed at their respective national championships. Many junior athletes qualified for state title events in what is arguably one of the most competitive regions in the country, and all of our athletes succeeded in improving their skills while having fun. Additionally, we hosted a number of prestigious events such as the NCAA National Championships and Eastern Cup Finals - these events were exceptionally well run through the hard work and dedication of our staff and volunteers.

At MMSC we are looking forward to an even more successful 2012 season. Many of our older athletes have been busy throughout the summer and fall utilizing our new strength and conditioning center. The commitment of our athletes is matched by the commitment and quality of our coaching staff at all levels. We will continue to host many great races and events for our junior programs, the Stowe Ski Bum Series, and returning this year to Main Street a FIS Men's Giant Slalom Nor Am.

We hope you will continue your support of MMSC.

Sincerely,

Igor Vanovac
Executive Director
